Name of Project: Turkey, Partnership for Market Readiness Project (PMR Project)

Project ID: P126101

Contract Description: Modelling Fiscal, Economic and Sectoral Impacts of Carbon Pricing in Turkey (Contract No. DoMBI(s)-4)

Scope of the Contract: The scope of work is summarized below:

- Analysis of the potential fiscal, economic and sectoral consequences of different carbon pricing mechanisms in Turkey through suitable models and tools available internationally.
- The main carbon pricing mechanisms to be assessed within the framework of this assignment are ETS and carbon tax. Other sector-specific instruments such as the trading of energy efficiency and renewable energy certificates, as well as scaled-up crediting or other result-based finance mechanisms will be included in the assessment.
- Revenue recycling potential and impact of the considered carbon pricing instruments will be analyzed.
- A comprehensive reference manual will also be prepared which will be intended for the technical experts within the key ministries.
- Intensive training towards the technical experts within the MoEU and other line ministries will be delivered.

Duration: The duration of the contract will be 12 (twelve) months.

Contract Signature Date: March 17, 2017
