

INTERNATIONAL TRAININGS

Turkey shares its vast knowledge and experience with other countries through annual "International Trainings on Combating Desertification".

Our country has cooperated on trainings and workshops with 48 of 54 African countries.

Best practices are demonstrated during our trainings to participating experts from Africa, Central Asia, Caucasia and Eastern Europe.

The trainings, organised with contributions of TIKA, comprise theoretical and applied demonstrations regarding agriculture, forestry and pastures.

Forest and Water is Life.
