Waste approach in the strategic plans of municipalities

- Educational activities
 - Direct trainings
 - Trainer trainings
- Workshops and projects
 - Permanent projects (Kadıköy, Fatih)
 - Mobile, within the scope of campaigns
- Digital information platforms
 - e-brochures
 - Mobile and web applications
- Waste-score applications
- Associate with social studies

Waste – economy relations

- * Associating waste with its producer
- * Tariff according to waste amount and content

Sharing mechanisms

Repair mechanisms

- * Directly by municipality
- * With the coordination of the municipality

Circular Design workshops

- * In Vocational Courses
- * Advanced design, coding, 3D etc.

Upcycling

- * Building materials from garden and landscape waste

A new definition of **consumption and governance**

- * green procurements
- * circularity approach in all services
- * emphasis on circularity in culture-arts and promotional activities

This project is co-funded by the European
Union and the Republic of Turkey

Thank you.
